Nosework – Level One

Nosework is basic scent detection training for your dog. It allows them to combine their amazing sense of smell with their love of performing a task. In the class, Bev Kerr of Hound Sense will teach the dogs to identify a specific scent, to locate the scent and then tell us that they have found it. As the dogs gain more experience, we ask them to be able to discriminate between different scents.

Any dog of any age can do Nosework. It is a low impact activity for both human and canine and is something that dogs love to do. We love it because using their nose requires a great deal of energy and effort from the dog which keeps them busy and tires them out. It is an especially good activity for dogs that are older, have mobility issues, are a bit shy or have not been socialized very well.

Dog's Age: Any age including senior dogs or dog's that have mobility issues
