## **The Basics**

This class is not only obedience, but behavioural training as well. We work on a number of things including basic commands and mastering the walk. Another wonderful skill we will teach you is how to claim objects and space! No more baby gates! We also throw in fun tricks like treadmill training and boredom busting brain games. Five or six months old is an excellent age to start training but in case you are wondering you CAN teach an old dog new tricks! This class is geared towards anyone with a dog, old dogs included. Everyone in your household is welcome to come to training. Although small kids can be a big distraction, older kids are welcome to participate in the class once their parents have mastered the skills.
