EVERYTHING FOR YOUR PET

Vaccination Check List

Each puppy/dog requires the following shots:

- Five-way shot – usually given 8 weeks, 12 weeks and 16 weeks and yearly for mature dogs. The five-way shot includes: Corona, Distemper, Hepatitis, Parainfluenza, and Parvo.
- Rabies
- Bordatella (commonly known as Kennel Cough).

THIS MUST BE DONE MINIMUM 10 DAYS PRIOR TO FIRST CLASS
TO ENSURE THE DOG HAS PROPER IMMUNIZATION
